Re Amendments to the Transportation and Materials Handling Plan

Dear Bruce

Section 3 1 4 4 Automated Vehicle Wash of the Transportation and Materials Handling Plan (the Plan) states that Doe Run will have an Automated Vehicle Wash Station in operation by December 1 2002 As per discussions with both EPA and MDNR Doe Run will construct a temporary heated structure to be used during times of freezing weather for washing vehicles This will continue until such time as the alternate haul route is selected Once the alternate route is selected Doe Run will locate a permanent Automated Vehicle Wash appropriately and maintain the approved construction schedule in the Plan

We appreciate your help in these matters and look forward to working with you to make the plan work for the Herculaneum Smelter and for the City of Herculaneum

Sincerely

Aaron Miller
